

Millions of pounds are lost to scams each year. Here are some things to remember if you get unwanted offers through the post or uninvited callers:

- if you haven't entered a competition you can't have won a prize, so **don't** reply or send any money
- responding to one item of scam mail can result in up to a hundred items being sent to you daily
- **don't** sign anything, or give out your personal details or pay in advance on the doorstep
- use your door chain.
Ask for and verify identification
- if in doubt call the police and keep the caller out.
