

Latest Covid-19 advice for the borough of Bury – 11 June, 2021

Covid-19 infections double week on week

Once again the number of new cases of Covid-19 in Bury has continued to increase rapidly. The weekly rate of new cases on 5 June was 207.3 per 100,000 and currently the rate is roughly doubling every week.

Numbers of new cases have also increased across Greater Manchester and the North West, and are starting to rise in the rest of the country too. The increase in the number of cases remains most pronounced in secondary school aged children and younger working adults (aged 20-39).

The number of people in local hospitals with Covid-19 remains low at the moment but increases in hospital admissions are being seen across the North West as a whole. There were three deaths registered in Bury with Covid-19 mentioned on the death certificate.

Bury, along with the rest of Greater Manchester and neighbouring Lancashire, now has a Strengthened Support Package from government. This means additional support from agencies like the police and military is available, as well as initiatives like assisted testing in schools.

We are delivering additional first vaccine clinics (see below for this weekend's pop-ups) and are going door-to-door across Bury to talk to people about what they can do to stop the spread.

We ask that everyone stays vigilant and does their bit to help us curb the infection rate:

- Continue to meet friends and family outside wherever possible.
- Stick to the really important basics of hands, face, space + keep air circulating when indoors.
- Get tested and isolate immediately if you need to
- Take up your first and second vaccinations when offered.

**Hands****Face****Space****Air**

Test

Bury has plenty of Covid-19 test options for people with and without symptoms – see below and take a look at bury.gov.uk/coronavirus-testing. When using a rapid test it's really important to register the result regardless of whether positive or negative. You can do this at www.gov.uk/report-covid19-result

Isolate

If you test positive for coronavirus please stay at home and do not go out under any circumstances. There is support available from our Community Hubs – see below.

Vaccinate

Take the vaccine when offered, and make sure you get your second dose when it's time – bury.gov.uk/coronavirus-vaccine

Together we can stop coronavirus.
Let's do it for each other. Let's do it for Bury.

7-day case figures:

- Week ending 5 June: infection rate per 100,000 - 207.3 (396 new cases).
- Week ending 29 May: infection rate per 100,000 - 112 (233 new cases).
- Week ending 22 May: infection rate per 100,000 - 65.5 (125 new cases).
- Week ending 15 May: infection rate per 100,000 - 38.2 (73 new cases).

More vaccination pop-ups to combat infection rate rise

As infection rates in Bury continue to rise rapidly, two more pop-up clinics have been organised to deliver hundreds more first Covid-19 vaccinations in the borough in quick time.

Residents can get their first coronavirus vaccination without appointment this weekend at:

- Saturday 12 June (noon to 7pm) at the Khizra Mosque and Islamic Centre, Parker Street, Bury, BL9 0RJ.
- Sunday 13 June (1.30pm to 5.30pm) at Prestwich Walk-in Centre, Fairfax Road, Prestwich M25 1BT.

These clinics will offer the Pfizer jab to eligible people who have not yet had their first dose, and will be offered on a 'first come, first served' basis.

Anyone over 18 who is unsure whether they are eligible can turn up and be advised by the staff there.

The clinics follow the success of three walk-up clinics last weekend, when around 1,300 people turned up to be vaccinated at the Elizabethan Suite, Prestwich Walk-in Centre and the Noor Ul Islam Mosque in Bury.

Bury first vaccinations now top 115k

A total of 115,976 people registered with a Bury GP have now had their first dose of the coronavirus vaccine - and 82,681 residents have now received their second jab.

There are multiple options for eligible people to get vaccinated:

- Come along to one of the local walk-in sessions – details above
- Book an appointment locally: covid.nhsbookings.com/gmpcn
- Fairfield Hospital is running Pfizer vaccine clinics from 8 to 25 June – book at sft.nhsbookings.com/v2
- Use the NHS national booking service online or call 119.

Keep up to date with all of the latest information about the Covid-19 vaccination, along with the benefits and risks, in this [useful information guide](#).

It's best to test!

Our Best to Test campaign rolls on, and can be seen prominently across the borough on outdoor media and online. It encourages everyone who does not have coronavirus symptoms to get tested twice a week to protect those around us - our loved ones and work colleagues - and to help us get back on our feet.

Rapid testing for everyone

In Bury we are supporting the Government's request to try and stop case numbers rising further, through everyone without symptoms getting regularly tested for coronavirus.

An estimated 1 in 3 people who have the virus don't know that they do, so they could unknowingly be passing it on to their loved ones or work colleagues.

Regular rapid testing, twice a week, helps to pick up cases that might otherwise not have been discovered. With this knowledge we can break the chain of transmission, helping us to protect people around us and safely get back to the things we enjoy and a more normal way of life.

The rapid test, known as a lateral flow test, takes approximately five minutes to complete and the result is available in around an hour if you are having an assisted test, or 30 minutes if you are taking the test yourself at home.

There are two main ways you can arrange a rapid test:

1. Assisted testing at a test centre

You can book an assisted rapid test at one of our testing centres. Our team will explain what to do and will process your result which will be sent to you by email or text message in around an hour.

You can book an assisted rapid test online, to be carried out at either:

- Waterfold Business Park, Bury BL9 7BR.
- The Mosses Centre, Cecil Street, Bury BL9 0SB.

2. Home testing with a self-test kit

You can also take the test yourself at home by following the instructions included with the self-test kit. You can collect a supply of self-test kits from a local testing site at certain times, from participating community pharmacies, or order kits to be sent to your home.

Registering your result

If you self-test at home you will need to register your result online or by phoning 119 within 24 hours of taking your test.

If you have a positive result

Anyone who has a positive test result should self-isolate and will be required to take a follow-up PCR test within two days to confirm the result, even if they don't have symptoms. This is also important to help track any variants of concern.

Even if you have a negative result, it's still vital to continue to follow the guidance around hands, face, space and air to avoid catching coronavirus.

Find out everything you need to know, book a test or request/arrange to pick up testing kits to use at home on our [testing information page](#).

If you have Covid-19 symptoms, here's how to get tested

If you have any of the three most common symptoms of coronavirus - a high temperature, a new continuous cough, or a loss or change to your sense of smell or taste - we urge you to get tested to protect yourself and the people around you. Please get tested within the first 3 to 5 days of symptoms.

A range of testing options are available right across the borough:

- No appointment needed at Bury's walk-through testing centre, open 10am - 3pm, Monday – Friday (excluding bank holidays) at Chesham Fold, 95 Chesham Fold Road, Bury BL9 6JZ.
- By appointment 8am - 1.30pm, with some locations open seven days a week, at Department for Health & Social Care testing centres located at:
 - The former Radcliffe Pool car park, Blackburn Street, Radcliffe
 - Whitefield Library, Pinfold Lane, Whitefield
 - The Metro Christian Centre, 13 Parkhills Road, Bury
 - Longfield Centre car park (via Rectory Lane), Prestwich
 - Great Eaves Road test site, Great Eaves Road, Ramsbottom
- Bury's drive-through testing site at Waterfold Business Park is available by appointment only.

Access the [latest information](#) about testing and availability or call 0161 253 5515.

Stop the spread - self-isolate

If you're told to self-isolate, it's important to do so immediately and for the full 10 days. You shouldn't leave home for any reason during this time (including the period of awaiting a Covid-19 test result).

Keeping yourself away from other people when you could be infectious is the most effective way of stopping coronavirus from spreading.

You're not alone if you find doing this hard. Planning ahead, even before you have been told to self-isolate, can make things easier; for example, think about how you would get necessities like food and medication in the event of the household having to self-isolate.

Bury's Community Hubs are still here for anyone who needs support because they have no one to turn to for support, including those who are self-isolating.

To access essential help call 0161 253 5353, 9am to 5pm, Monday to Friday or text 07860 022876 (messages responded to by the next working day).

Helping people through the toughest times

Mental health support

As the coronavirus pandemic continues, life has changed for all of us and it's natural that this may cause you to feel worried or anxious, lonely or frustrated. If you feel you need some extra support, Bury's Getting Help Line is a confidential telephone service run by the voluntary sector for people of all ages who are experiencing difficulties with their mental wellbeing.

You can access advice, guidance and signposting to local services by calling the Getting Help Line on 0161 464 3679. [Find out more](#) about other mental wellbeing support.

Business support

Thousands of businesses across the borough could be eligible for new discounts on business rates that come into effect on 1 July.

A huge range of businesses – from shops and restaurants to gyms and art galleries – will benefit from the extension of rates discounts for another year. However, applications must be submitted to receive the discounts after June.

The discount is only available to occupied properties. However, if you had to close your business temporarily due to national lockdown restrictions, you can still qualify.

The business rates discount for nurseries has also been extended. To qualify, they must be on Ofsted's Early Years Register and be wholly or mainly used for the provision of the Early Years Foundation Stage.

Businesses and nurseries, if eligible, could receive:

- 100% discount for the 2020/21 tax year
- 100% discount for the first 3 months of the 2021/22 tax year (1 April 2021 to 30 June 2021)
- up to a 66% discount for the rest of the 2021 to 2022 tax year (1 July 2021 to 31 March 2022)

Details of the business rates discounts, eligibility criteria and application forms are on the council's website [here](#)

Could you help us get important Covid-19 information out to people in Bury?

The Bury Community Champions scheme was created so we could get important news about Covid-19 developments out to people quickly, and in the best format for them.

We're looking to recruit more Champions to join the dozens of people across the borough who have already signed up to the scheme, and help our public health team to co-produce and send out

Hands

Face

Space

information like bulletins, leaflets, videos and assets for social media, some of which could be adapted for different needs, e.g. in different languages.

As the latest developments with new variants have shown, getting the word out to our communities so that people can take action for themselves and their families is more important than ever.

[Find out more](#) about becoming a Community Champion.

Next update due Friday 18 June, 2021.
