- Walkers attend at their own risk.
- Car share contributions are voluntary.
- Walkers are responsible for ensuring that they are properly equipped with boots and clothing and that their personal fitness is consistent with their being able to undertake occasionally strenuous hill-walking.
- The risk associated with hill-walking includes: paths can be rough underfoot; fields can be boggy and contain deep ruts; the rock at the side of and within streams are usually slippery; stiles and hillsides can be slippery when wet; country lanes do not always have a footpath but nevertheless can carry fast traffic.
- Walk leaders should be contacted for further information.
