Guide to Duolingo App

Duolingo is an app which allows you
to learn over 40 different languages
online for free

Downloading and Working the App

1. Unlock your phone and go to the 'App Store'.

2. Click on the 'Search' button in the bottom right corner and type 'Duolingo' into the search bar at the top.

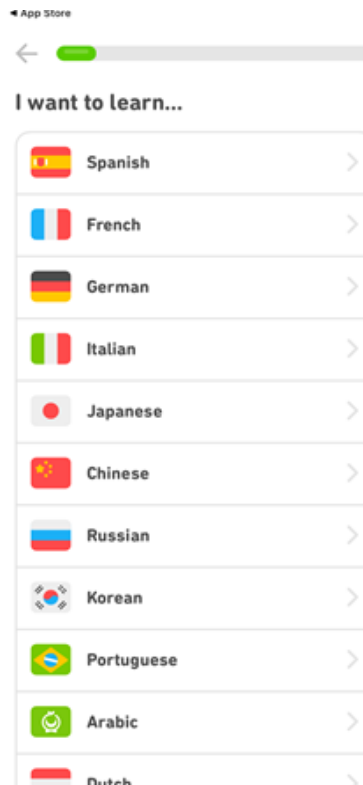

Select 'get' next to the app and wait for the app to download.

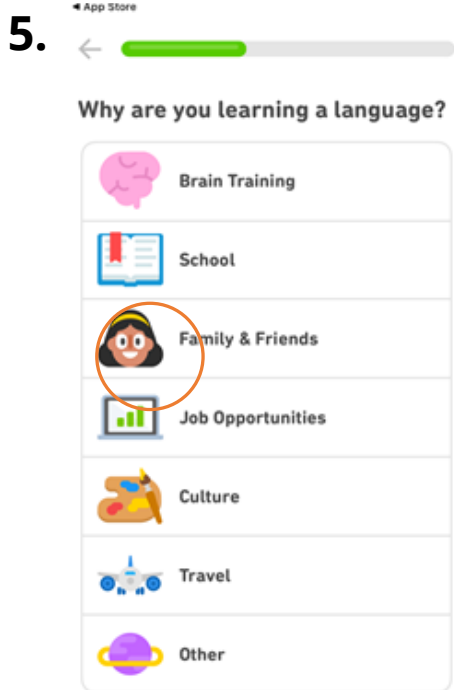

3. Click on 'Open' next to the app to open the app, then click on 'Get Started'.

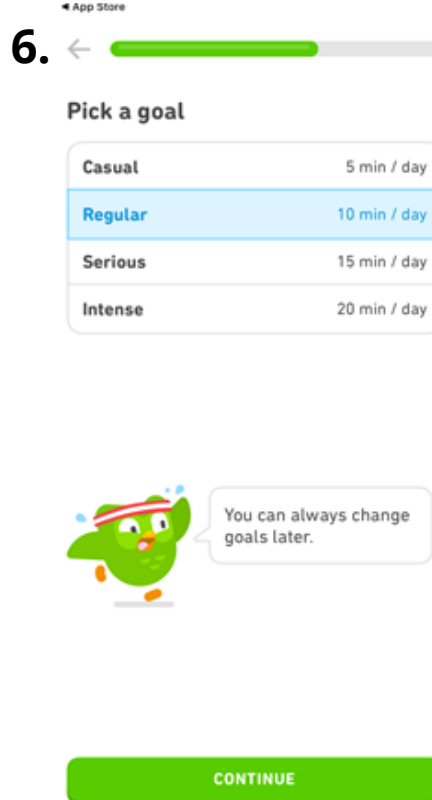

4. Select the language that you would like to learn.

Next, select how your heard about the app. The answer you choose will not have an affect on your learning.

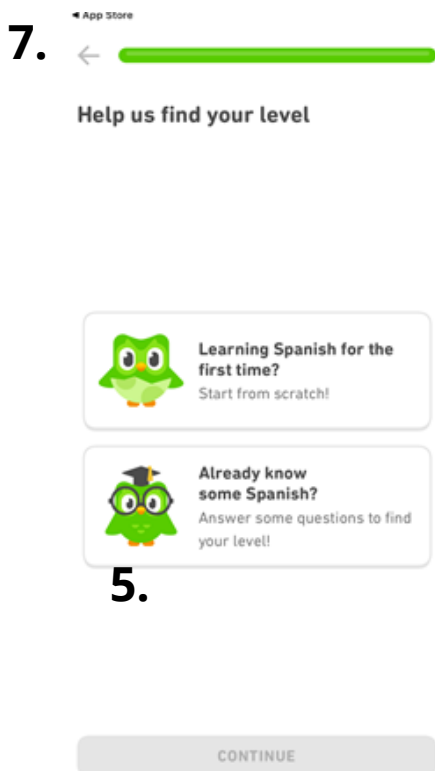

Select the reason for wanting to learn a language - this is for internal monitoring only.

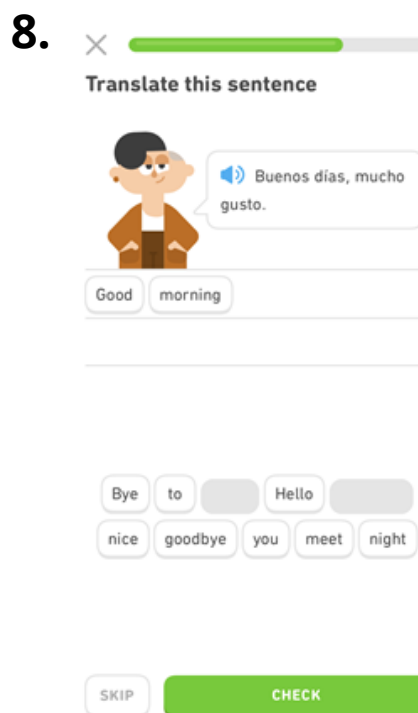

Pick the amount of time you aim to spend on this app daily. The more time you use the greater improvement you will see.

Click 'Continue'.

You can now select if you would like the app to send you reminder notifications.

Next you will need to enter your language level. If you are a complete beginner select 'Learning for the first time'. If you know a little bit of the language select 'Already know some'.

You will now be asked to answer some questions in the language that you choose - this is to set the level that the app will teach you on.

You are now ready to go and learn your new language!
