If you live in the borough of Camden and have memory loss or dementia our new Dementia Wellbeing Service can provide flexible support to you and your family or carers.

Practical and emotional one to one support
The Dementia Wellbeing team provide practical and emotional support to meet your needs. Following an initial home visit they’ll work with you, your family or carers to produce a personalised wellbeing plan. This plan will focus on the issues that you think will make a difference.

The team can work with you for up to six months and this can include weekly, bi-weekly or monthly visits, as directed by you. Fully trained volunteers will also provide support and visit you at home.

How we can help you
We can support you with:
- developing a personalised wellbeing plan
- life history work
- finding other Age UK Camden services to support you
- implementing systems to manage your post
- meter readings and informing providers

- increasing opportunities for social engagement by accompanying you to groups
- reconnecting with enjoyable past times – writing, painting, gardening, knitting
- joining group activities.

Dementia friendly services – making a difference
We strive to be a dementia friendly organisation. We treat people living with dementia as individuals rather than focusing on their illness or on any abilities they may have lost.

We also provide support, advice and information for carers, families and friends, as well as to other organisations and professionals.

The Dementia Wellbeing Service works with other Age UK Camden services - resource centres, direct payments and advice teams, befriending and Care Navigators - to provide holistic support and make a real difference.
