Personal Assistant Recruitment Cost of Service **£149** (including VAT)

Experts in sourcing care for you

We are experts in sourcing care for you. Let our team take the stress away from this process, following an in-depth discussion to establish your exact needs and wants. We have exclusive access to the whole of the care market

How it works

01 OVERVIEW

Agency support can be a really reliable option but for some people a personal assistant can be the best choice – with this, you get the option to know your provider and have the same friendly face each time you are supported. This support works especially well if you need lower-level support for example a few hours to go shopping, a break from your caring role, support with activities or care just a few times a week. Personal assistants come in many forms and at Age UK Cheshire we have many years of experience of recruitment and supporting the process of accessing this unique method of support.

02 ADVICE AND SUPPORT

Through discussion we will determine and advise on the best route of support for you, and we have connections with local Personal Assistants as well as the option of recruitment through the well-known recruitment platform, Indeed

We will work with you to devise and develop a thorough role description for the assistance you need which will include what is important to you and the support you require but we will not share any personal information on this, just your gender and the area you live in.

All offers are processed through our team so you will not be contacted directly. We will check prospective applicants for suitability and ensure clarity on areas such as the cost of the service and contact information before sharing. Only those with availability and suitability to meet your needs will be passed to you ensuring a simple and supportive process from start to finish.

03 YOUR NEXT STEPS

If you like what is on offer, we will arrange an informal discussion followed by an in-person meeting. If you decide to go ahead, we will continue to support to ensure you have references and copies of police checks as well as a contract of service from your chosen provider, once all elements are in place, the arrangement will be between you and your chosen provider.

Benefits

- ✓ You get low cost and high-quality service that can take the strain of finding a suitable Personal Assistant to suit your needs
- ✓ You will have dedicated support throughout the process and will find a support that is suited to you who you can get to know and trust
- ✓ We have an experienced team and excellent connections to ensure good outcomes for you and your loved ones to remain in control of their care needs and remain independent *

****If you are enquiring about another person we will need their consent to source care for them****
