Care Sourcing Platinum Package Cost of Service **£149** (including VAT)

Experts in sourcing care for you

We are experts in sourcing care for you. Let our team take the stress away from this process, following an in-depth discussion to establish your exact needs and wants. We have exclusive access to the whole of the care market

How it works

01 WE WILL CONTACT EACH AGENCY

If you feel less confident in contacting agencies yourself then our care sourcing platinum is the choice for you. We offer the same excellent experience you will receive with our GOLD option which includes contacting each agency to determine if they have capacity to support based on your needs.

Be assured, we will never share your details without your consent so all our enquiry emails are sent with your unique reference number and will include only your postcode and gender as well as a summary of your requirements.

02 SIMPLE AGENCY COLLATION

Agencies with capacity to support based on your requirements will be collated for you in a simple way to include details of the agency, a link to the Care Quality Commission (CQC) report, costs of their service and an estimation of the weekly cost of care based on the support you require.

03 DEDICATED SUPPORT

In addition to our GOLD service, our PLATINUM service provides a dedicated support from our team throughout the process to ensure that care is secured and in place for you. Once you have decided your preference of provider, we will contact your agency of choice to allow them to arrange an assessment of your needs in your own home.

You will receive a copy of this information within 3 working days of our initial discussion, longer if being posted.

04 NEXT STEPS

They will contact you within 3 days and arrange to meet with you to discuss your needs and their service more. If following the assessment, you are happy to proceed we will obtain a start date of care and you will have the reassurance that care will commence on this date. To ensure your full satisfaction with the service we will schedule a review to take place after 6 weeks of care commencing to check that you are happy with the support and see if any further assistance is needed
