### Q3 | Oct to end of Dec 23

Demand for community transport services during the colder months has increased, in particular health-related appointments and group outings for social events.

We have helped people reach: Carer, Dementia, and Veteran Support Groups; Wellbeing, Cancer Support, MS Society South West Group and Mental Health Services; Community Hubs for wrap-around activities and connection; festive meals/events, Xmas shopping trips and social outings.

The picture above is from a day out to Windy Ridge Eating House in Saltash, clients who experience loneliness, from the Step into Wellness programme, are enjoying a festive meal with new friends.
