

Electric Vehicles

We have successfully secured European Regional Development (ERDF) funding to contribute towards the purchase of 6 fully accessible Electric Vehicles. We are extremely excited to announce that 6 Electric Vehicles have now been purchased and are ready to be used by local groups & the Cornish community.

Our Electric Vehicles and designated charge-points are based in the following locations;

- St Claire Medical Practice, Penzance
- Veor Surgery, Camborne
- Dracaena Centre, Falmouth
- Newquay Sports & Community Centre
- Lanivet Community Centre, Bodmin
- Millennium House, Pensilva

Our Vision

Our aim is to connect local communities and reduce social isolation using environmentally-friendly transport solutions.

There are many great benefits in using Electric Vehicles, these are just a few:

- ✓ They help build community resilience.
- ✓ They are environmentally friendly.
- ✓ They save you money.
- ✓ They are easy to use and wheelchair friendly.
- ✓ They reach some of the most isolated people.
- ✓ They are peaceful and serene.

How can I sign up?

If you run a group, support the community or provide a service, then you can become a member today. It is easy to sign up, **simply contact us using the details below and we can guide you through this process.**
