# Dementia Day Opportunities

Improving later life with dignity and independence

October 2023

## About Dementia Day Opportunities

Age UK Coventry and Warwickshire's Day Opportunities provide a sociable atmosphere where engaging, fun activities alongside periods of quiet time are tailored to meet the needs and preferences of each person.

These include:

- Arts and crafts
- Interesting and interactive activities
- Socialising and conversation
- Games

## Choice and Independence

We aim to encourage choice, independence, and improvement in quality of life. At our centres we provide a safe, caring, and secure environment – a “home from home” with the added opportunity to form new friendships and enjoy the company of other local people. Hot meals and refreshments are provided.

We have a team of committed, experienced staff that are professionally trained and benefit from regular development opportunities and skills updates.

## Who can attend?

Anyone who

- Lives in Warwickshire.
- Has a diagnosis of dementia.
- Is able to join in activities and interact with group members.
- Is sufficiently mobile to access transport.
- Is able to move safely around building-based support.

New referrals are assessed to ensure tailored support.

**Please note this service does not provide personal care.**
