Podiatry & Nailcare

Podiatry services specialises in assessing and treating problems of the lower limb particularly of the foot and ankle. Whittington Health NHS Trust provides a podiatry service and there is more information about this on the Whittington Health NHS Trust website. They can help where there is a medical need e.g. for in-growing toe-nails, but is important to note that many routine skin and nail problems can be managed effectively without the need to visit a podiatrist.

For basic nail-care, including toe-nail cutting, please see local chiropodists below:

The Mackenzie Practice > Open 5 days a week from Tues-Sat. 125 Mackenzie Road, Islington, London, N7 8QS. Friendly, private therapy clinic offering a range of therapies. Standard consultation and treatment £50.00. House Calls elderly/disabled locally £65.00.

- Book an appointment on 020 7226 7006 or email info@mackenziepractice.com
