

CARER'S PARTNERSHIP

Islington Carers Hub and the Trust are looking for Carers to be represented at this bimonthly partnership meetings. There will be representation from both service departments within the Trust and carer support providers including Islington Carers Hub and Camden Carers.

It is important for the Trust to engage and better understand the needs of carers through these meetings to ensure:

- **Sharing information and involvement in multi-disciplinary teams**
- **Training and induction**
- **Support for carers is constant**
- **Each service to have carers lead**
- **Carers Hub visit for all new staff on induction**
- **Carers Partnership to deliver communication guidance**
- **Carers position statement "Listen with Kindness"**

These meetings have been ongoing through virtual meetings but likely to be held using a combination of virtual and venue based at St Pancras Hospital in the future.

The next meeting is taking place virtually on 16th November

If you have particular experience in caring for someone with mental health needs and would be interested in attending these meetings together with a member of the Islington Carers Hub team, Please contact me.

Ismail Bahriyeli
Head of Services – Carers & Community
