

# BYSTANDER TRAINING

## For Women's Safety

Islington, Hackney and Haringey

**This FREE Bystander Training empowers everyone in the community including professionals and volunteers, to help build a safer community.**

Participants will learn to identify problematic gendered behaviours, sexual harassment, and everyday misogyny, and understand their impact on women's safety. Moving beyond awareness, the session equips attendees with practical tools to become active bystanders.

You will learn to evaluate risks using the ABC model and confidently intervene by applying the 5 D's: **Distract, Delegate, Document, Delay, and Direct.**

To register for the Bystander Training, please email:
