The Museum of London's programme of engagement
for people living with dementia

A Box of Smiles by Dementia In Dub

Free music and poetry workshops with Ronald Amanze and David Truswell

Every Wednesday from 5 October until 9 November 2022. 2pm – 4pm

Museum of London Docklands

The Museum of London's Memories of London programme, is delighted to host 'A Box of Smiles', a workshop for people living with early stage dementia/mild cognitive impairment and their carers, families and friends.

Developed by music producer Ronald Amanze, himself living with dementia, 'A Box of Smiles' uses creative writing and music to empower other people living with dementia and help them connect, engage and interact with others.

A programme full of joy (the name alone makes your heart sing) 'A Box of Smiles' is expertly facilitated by Dementia In Dub, an organisation founded with David Truswell, Ronald's professional partner.

Join Ronald and David as they bring smiles, laughter, poetry, well-being and Dub, to the Museum of London.
