or visit: [www.ageuklancs.org.uk](http://www.ageuklancs.org.uk)

---

## Overview of the service

This valuable service gives up to 12 weeks tailored support for older veterans, providing information and advice, practical support at home, access to social events and opportunities to become more active.

## How does it benefit older people, their families and carers

This project allows us to build on the work we already do with older people and to reach out to those veterans, family members and carers who may need more support. The grant means we can develop and test our services and learn more about how best to support older veterans to get more out of later life. Our work has at its core what older people want to achieve for themselves.

## Eligibility Criteria

Born before 1950; provided at least one day of service, for example National Service, Army, RAF, Navy, TA along with Merchant Navy; live in a Lancashire County Council district.

The Navigator team will predominantly deliver the service via home visits and other community venues.

This project is funded from the Aged Veterans Fund, funded by the Chancellor using LIBOR funds.
