

Flexible Community Volunteering

Could you be available as and when an older person needs support?

We are inviting people to join our team of Community Volunteers; offering local neighbourly support on an adhoc basis.

Since May 2020 we have been delivering a number of services to older people across our communities which we class as one-off requests for help. These random acts of help include collecting a prescription for someone whose unwell, or delivering an afternoon tea from our Sage Kitchen. To do this, we have enlisted the help of individuals who have some time in their schedules to meet these requests. This has been done in partnership with a website called Help My Street.

What is Help My Street?

- Help My Street is an online platform that matches volunteers with local people in need of a little bit of help.
- It is a way we can all help out in our local community as and when it fits around other commitments.
- It means we can support our neighbours, volunteer with no permanent commitment and without the need to do any lengthy application forms; or just be available in case there is an older person needing help locally.

Time Commitment

- None
- Volunteer as much or little as you wish.

Important Considerations

- You must be over 18.
- Have an email address. and smart phone or device.
- Have valid photographic ID (a passport or driving licence)
- To be willing to work to guidelines and policies on Covid 19, health & safety, equal opportunities, confidentiality, safe distancing measures.
