

Volunteer Visitor Host

This is an exciting and rewarding opportunity to help reunite care home residents in Lincolnshire with their family and friends safely.

The pandemic has made it difficult for residents to meet up with their families, and yet, face to face contact is so important for the health and well being of both residents and visitors. With the help of our volunteers, more care homes are finding themselves able to welcome visitors again and reunite them with their loved ones. We know that our volunteers are passionate about improving the lives of older people and what better way to achieve that than by giving up a few hours a week to make a difference to their lives?

What will I do?

- Greet visitors into the Care Home.
- Supply visitors with a lateral flow test and PPE.
- Log test results.
- Ensure waiting/testing area is kept clean.

What skills and experience do I need?

- Friendly & approachable.
- Basic IT skills.
- Happy to work both in a team and independently.
- Patient and precise.

Benefits of Volunteering

Join our team of volunteers supporting care homes in Lincolnshire

Meet new people.

Share your skills and learn some new ones.

Give just one hour a week, or more if you wish

Have fun and enjoy some social time.

Additional information

Hours to suit - shifts are usually 2-3 hours.

Volunteers must be over 18 and require an enhanced DBS (at no cost to you).

Volunteers need to be fully vaccinated against Covid-19.

Full support and training is provided.

This project is in partnership with Voluntary Centre Services and Age UK Lindsey.

I'm interested, what do I do next?

Please contact; volunteering@ageuklsl.org.uk, we will guide you through our application process
