Norfolk Deaf Association (NDA) – Befriending Service:

The NDA Befriending Service is staffed by volunteers, (many of whom are bi-lingual in BSL and English). Befriending is a relationship between a trained volunteer (a befriender) and a service user (befeinded) within a structured and supervised programme.

The NDA Befriending service provides emotional support to individuals who have become isolated owing to their hearing loss, or anyone who thinks their emotional wellbeing would be improved by the one-to-one support offered by the service. Befriending works by supporting the individual in coming to terms with hearing loss and finding the confidence to venture out and socialize. Your aim might be as simple being able to go to the shops, or to travel on a bus and your befriender will support you in that activity. All befriending volunteers are trained and adhere to a strict set of ethical boundaries.

West Norfolk Befriending:

This is a local registered charity supporting local older people who are socially isolated. Many of their clients have sensory or physical disabilities or are unpaid carers.

West Norfolk Befriending aims to reduce social isolation by matching isolated older people with a DBS checked, inducted, trained and supported volunteer befriender who will visit them on a regular basis. In addition to offering regular visits, such contact also helps clients maintain their independence, quality of life and helps to identify risks to health and environment. Where possible, we facilitate re-integration into community life. Quite frequently we become a signposting service to other services.

The outcomes that West Norfolk Befriending works to are: to reduce social isolation; improve quality of life; maintain independence; improve mental and physical wellbeing.

Reenagage:

Our call companion's idea is very simple: a volunteer call companion calls the same older person between two and four times a month at a mutually agreed time for an informal chat. Calls will last for around 30 minutes. Just like our social gatherings, the call companions programme is aimed at people who are 75 or older, living alone or in sheltered housing with little or no contact with family or friends, and struggle to leave their house in normal times.
