

A large, circular graphic with a gradient from light orange to dark red, containing the text 'Later Life Planning Service'.

Later Life Planning Service

For responsible employers. For resilient employees.

People are a business' most valuable asset – and a healthy workforce is a productive one. Our new employee benefit is designed to help you look after your staff, increase engagement and reduce absenteeism. All from the local charity with 75 years of experience supporting Norwich's communities.

If you take the wellbeing of your staff seriously, then get in touch today to discuss making the Later Life Planning Service part of your benefits package.

Introducing the Later Life Planning Service

All too often, getting older can be a source of stress and worry. We're all working for longer, so it's no surprise that these health and wellbeing issues often present themselves in the workplace.

There are many changes to prepare for in later life. No matter what's on the mind of your employees, we offer supportive, expert and independent advice to deal with major life events.

We're here to help

Our aim is for Age UK Norwich's new employee benefit, the Later Life Planning Service, to be a long-term part of your benefits strategy. As well as providing an ongoing source of support for your employees, you'll also help fund our staff's vital work to support the local population of Norwich and the surrounding area.

Sign up and your staff will receive:

Dedicated advisor

A direct line to an expert on pension options and welfare benefits, care for parents and relatives as they grow older, access to support after retirement and much more.

Workshops and seminars

From all staff sessions to drop-in clinics, we'll be there to make sure your staff aren't in the dark about later life.

A library of advice

Access to the charity's full range of information booklets and guidance from our professional staff on where to seek further support.

Age affects us all differently

Some will take on responsibility for older parents. Others need practical support. And all of us should be planning for our own later life.

Your staff will receive a wealth of expertise from Age UK Norwich on:

- Home and housing
- Money, bills and welfare rights
- Care options
- Dealing with bereavement
- Social opportunities and volunteering

Complete your wellbeing offer

The Later Life Planning Service has been carefully designed to address a need that other employee wellbeing benefits frequently miss.

Our charity's expertise on preparing for later life and meeting its challenges will augment more common employee benefits like staff assistance programmes, wellbeing activities and all-purpose mental health support. We work closely with HR and welfare teams to ensure you receive an offer that's tailored for your business, people and unique needs.

- Drive down absenteeism, stress and staff turnover.
- Protect against long-term impacts on your business.
- Celebrate your company's commitment to your people.
- Partner with a major local charity.
- Harness our close connections with local press for positive PR.

Excellent value. Exceptional returns.

In return for a scaling annual cost, your staff will receive full access to the Age UK Norwich Later Life Planning Service for a period of 12 months.
