

**British Red Cross**

# **Queen's Hospital & King George Hospital Assisted Discharge Service**

We provide one-off support to patients in the transition out of hospital and into their own home. Our free service can help patients to feel safer and more confident after a stay in hospital. Please see the back of this flyer for details.

**Here for  
humanity**

## **How we can help...**

The British Red Cross will meet with the person prior to discharge to discuss how they can best help them home and to identify if and how they can help them better manage their health and wellbeing. On the day of discharge, to ensure people are settled safely back into their own home, the British Red Cross support people through a range of tasks including:

- Property checks to aid discharge
- Key cutting
- Giving access to patients' property for medical equipment deliveries
- Emergency food shopping
- Delivering medication

**If necessary, ongoing support can be provided through signposting to our Partners.**
