

## Join our free 8-week tablet loan scheme - Internet connection and lessons included!

"Thank you so much for putting me in touch with tutor Nicola. She is a lovely person who also seems to have endless patience! What a gem! I feel more confident using technology now."

**Do you want to explore the internet but  
have no computer or tablet at home?**

If you are older and new to the world of technology and live in the Borough of Richmond, we can lend you a tablet or computer for 8 weeks. The tablet comes with built-in internet connection, so you do not need to have home broadband.

We will support you with free lessons with a trusted Age UK Richmond Connect to Tech tutor. Our tutors will teach you how to use the internet to find information, book appointments, shop online and much more!

To find out more call **020 8744 1965** or email
