

Covid-19 in Later Life

Conversations about the impact of the Covid-19 Pandemic on people in later life in Rotherham

Dear friends and colleagues

We are working with Rotherham Older People's Forum to gather information and stories about how Covid-19 is affecting people in later life. There's no particular age limit, just think about those in your family, group, or community who are finding their own ways to manage the situation and the restrictions that we are all living with. It would be great for families to provide support for older people who need it, to take part in this short survey and so have their voice heard.

The situation is now frequently changing and we are hoping this survey will give you a chance to tell us about what its been like for you and your feelings about the next 6 months?

Please return your completed forms or stories by email if possible to: iain.cloke@ageukrotherham.org

If you would prefer to have a conversation with us over the phone then please contact us by telephone or by leaving a voicemail with your name and number on 07585225832 and we will call you back as soon as we can.

We would also be happy to be invited to chat with any online groups or networks in Rotherham.

Kind Regards

Iain Cloke

Listening to Rotherham’s Older Voices

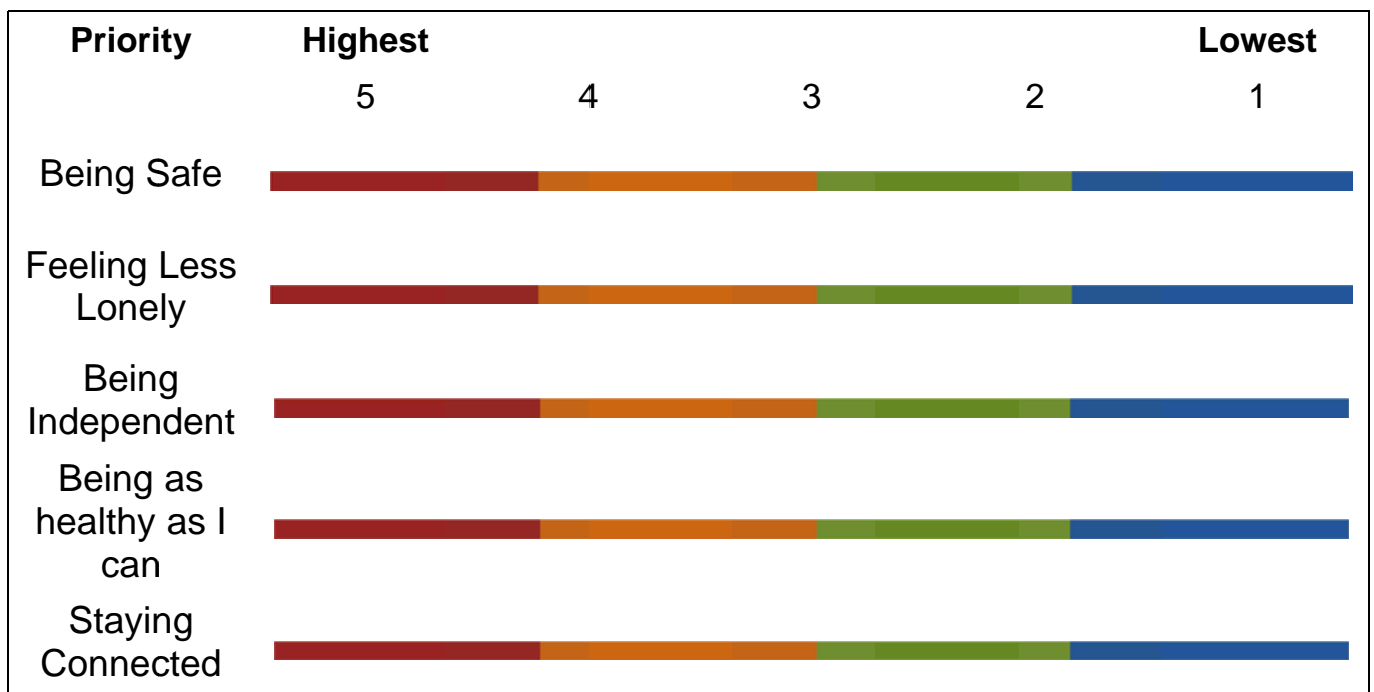

Listening to older voices in Rotherham about their issues and experiences during the Covid-19 Pandemic and what happens next

You don’t need to tell us who you are but it would help us to know some things about how you would describe yourself:

Your Age		Do you have a disability or long-term condition?	
Your Gender		Are you an unpaid carer?	
How would you describe your ethnicity? eg White British, Irish, Asian British, West Indian, Black African etc		Are you living alone?	

Which of these priorities currently matters most to you? Place an **X** on each scale
