

Dementia Support Service

About our Service

Our **community-based** team offer practical and emotional information and advice to individuals, families and carers to assist you with your memory loss or dementia diagnosis.

We **connect** you to local services, people and social groups to help you overcome feeling socially isolated or alone.

Our **bespoke carer training** programme helps you plan for the future and provides the opportunity to speak to other carers and healthcare professionals.

We are **with you all the way** on your journey with dementia and can help you find the answers you may be looking for.

Our Team

We are a team of specialists, support workers and volunteers some who are themselves living with dementia.
