What are your favourite things about living in Somerset or North Somerset?

COMMENTS

"It's nowhere near London."

"A beautiful county, many landscapes and environments. Not overdeveloped or spoilt...yet."

"...wonderful countryside, especially the levels, and friendly people"

"I lived in London until my mid fifties. When I hear locals complaint about Weston it amazes me. This area in comparison is like a 'parallel universe'! British customs and history are still celebrated such as wassailing. There are village community events. Many clubs and interests and activities to enjoy in older age and for all age groups. "

"Less pollution here compared to other places."
