

Home Bathing

Our aim here at Age UK Tunbridge Wells is to improve later life for everyone and to make it a fulfilling and enjoyable experience, by offering a range of services to older people in the community, including, among others, our Home Bathing service.

Home Bathing service

Our Home Bathing service is designed to help you enjoy having baths and showers at home, knowing there's help at hand should you need it. Even if you do have someone around to support you, our Home Bathing service provides that bit of extra help if necessary. Our fully trained staff are able to assist as required, or are happy just to provide reassurance and give you back the confidence you may have lost.

If you're interested in the services, simply speak to your GP, district nurse or care manager for a referral, or contact the Home Bathing service manager directly.

After a referral to the service, our staff will visit you at your home and ensure that the service can meet your individual needs, staff are Trusted Assessors, this means they can access some equipment from the Occupational Therapy Service or request where necessary a full OT assessment. People are often and understandably desperate to maintain their independence, but they need reassurance and support, and so we enable you to exercise control over how this very personal service is delivered.

For further details about Home Bathing or any of the other services we provide, please contact us using the details below.
