About us

Age UK Wandsworth is an independent charity that has been working with, and for, older people in the London Borough of Wandsworth since 1963.

Previously known as the Wandsworth Old People's Welfare Council and then Age Concern Wandsworth, in 2011 we became Age UK Wandsworth and part of the Age UK network of charities.

We are an independent charity. Whilst we partner with Age UK, we raise our own funding and all of our money is spent supporting the older people of Wandsworth.

The services we offer are 'preventative' – we aim to offer timely support to prevent a situation getting worse and a crisis happening. This means offering a range of services which aim to:

- ◆ Support older people living independently in their own homes for as long as they are able and wish to do so
- ◆ Improve or maintain older people's health and wellbeing
- ◆ Prevent loneliness and social isolation
- ◆ Enable older people to have choice and control over issues that affect them

“ They fitted everything for me so I can get around in my home ”

Our plans

As the largest provider of older people's voluntary services in Wandsworth, we need to ensure our services meet the needs of the older people in our community.

With the population of older people in Wandsworth set to increase by 44% in the next 20 years, we also need to ensure we have the appropriate resources in place to meet the increasing demand for our services.

There is increasing pressure on statutory funding and in 2018/19 the Council will be commissioning preventative services from the voluntary sector which will affect a couple of our services. In order to ensure we have adequate funding we are thinking creatively about how to source the money we need, but also how we can work together with other organisations to ensure the needs of the older population are met.

It is important that our services reflect the changing needs of older people and digital isolation is becoming a serious problem as more of life's 'admin' moves online. We are delighted to be piloting a computer support service, thanks to some funding from Santander. Initial feedback has been extremely positive and we are looking to secure more funding in order to roll this out across the borough.

The Men's Shed continues to flourish in Roehampton and we are excited to report that the members are now converting an old

garage into a proper 'shed' which will allow for bigger, and more messy, projects!

This year will also see a revised organisational strategy following consultation with staff, trustees and service users. The plan sets out what we know of the needs of older people in Wandsworth and how we will meet those needs. Whilst it is a three year strategy, needs of older people and the external environments are changing and we will need to respond flexibly to these changes.

On the following page is a full list of everyone to whom we owe thanks, but we would like to pay a personal tribute to the office staff, whose passion and commitment ensures our services are run so effectively, and the trustees who give us their time to steer our organisation forwards.

We must also thank the hundreds of volunteers who are the lifeblood of our organisation and without whom we simply could not deliver our services.
