Care Needs Assessment - Local Authority

This usually involves an occupational therapist visiting you at home to discuss your needs. As a result of the assessment, the local authority can provide:

- a report of what the needs are (this can help you make decisions about care and support)
- up to £1,000 of free aids, equipment and minor adaptations, regardless of finances. This could include items like grab rails, ramps, bath seats. A 'Disabled Facilities Grant' may be available for larger adaptations.
- Means-tested funding towards a care package (usually an individual must have less than £23,250 in capital)

Power of Attorney and Wills

A Power of Attorney is a way of giving someone you trust the legal authority to make decisions for you, if you can't make them yourself – or if you don't want to. You can only create one if you have mental capacity to do so and you haven't been put under any pressure. You can get information and forms from Office of the Public Guardian. Tel 0300 456 0300 www.gov.uk/power-of-attorney.

A will can help ensure your wishes for your estate are carried out. For example, that your money, property, possessions and investments go to the people and causes you care about. You may be able to write a lower-cost will through a reputable charity scheme. Seek legal advice from a specialist solicitor if unsure.

Priority Service Registers

Free to join and offer a range of free services and support, including help during a power cut. Tel: 0800 294 3259 (Scottish & Southern power distributors in Wiltshire). Also contact your own domestic utility companies to register for theirs.
