● Reflexology

Based on the idea that specific points on the feet, hands, and ears correspond to different areas of the body, the ancient healing modality of reflexology can be a powerful complementary therapy to support your overall health and well-being. Reflexology has incredible benefits which can increase energy, boost circulation, aid in relaxation, eliminate toxins from the body, help with stress and anxiety, pain relief and much more.

Reflexology does not claim to be a cure all, but numerous conditions have been treated with this method.
