We Empower

'Our network is going from strength to strength thanks to Age NI'

Mid Ulster Senior Network Member

We work in partnership to support the growth and sustainability of age sector networks across Northern Ireland.

We support networks to plan, develop and deliver a range of vital services, projects and activities which make a practical difference to thousands of older people. These include befriending, good morning calls, luncheon clubs and advice services.

We ensure older people are included, engaged and valued and that their voices shape the development of Northern Ireland as an Age Friendly region.

We Engage

'With an ageing population, we need policies and structures in place which add life to years now, not just years to life.'

Dr Paschal McKeown, Charity Director of Age NI

We inform and lobby local and Northern Ireland government to prepare and plan more effectively for the opportunities and challenges of our ageing society.

We work with Age NI's Consultative Forum whose role is to inform, advise and challenge Age NI and others on what matters to older people.

Our priorities are clear.

We want to see:

- a health and social care system which delivers best quality care in later life
- a reduction in pensioner poverty
- the rights of older people strengthened to end unfair and discriminatory treatment when accessing goods, facilities and service

- **Good Vibrations:** A collaboration with the Public Health Agency and the Department for Communities, developed to support older people to stay well, physically active and connected during the pandemic.
- **Check-in and Chat:** Launched in response to Covid-19, and supported by the Commissioner for Older People, this service provides weekly friendship calls to people who are lonely or isolated.
- **Bespoke Services:** we have a range of bespoke services developed in conjunction with Health & Social Care Trusts, such as Living Well Moyle, Community Navigators, and Staying Sharp, which aim to build greater resilience and help older people stay connected to their communities.
