

Factsheet 87

Personal Independence Payment and Disability Living Allowance

April 2025

About this factsheet

This factsheet gives information about Personal Independence Payment (PIP), a non-means-tested benefit for people under State Pension age who have a disability. State Pension age is currently 66 years.

The factsheet also has information about Disability Living Allowance (DLA) which is being replaced by PIP for some people. It covers the process for reassessing existing DLA claimants for PIP and explains what to do for both benefits if you have a change of circumstance.

If you are over State Pension age and have care needs, you may be able to claim Attendance Allowance (AA). See factsheet 34, *Attendance Allowance*, for more information.

The information in this factsheet is correct for the period April 2025 to March 2026.

Benefit rates are reviewed annually and uprated in April but rules and figures can sometimes change during the year.

The information in this factsheet is applicable in England and Wales. If you are in Northern Ireland, please contact Age NI for information.

Disability and carer benefits are being replaced with devolved benefits in Scotland. Adult Disability Payment is replacing PIP, see the Age Scotland guide: *Adult Disability Payment*, or contact Age Scotland for more information.

Contact details for any organisation mentioned in this factsheet can be found in the *Useful organisations* section.

1 What is Personal Independence Payment?

Personal Independence Payment (PIP) is for people aged between 16 years and State Pension age who need help with daily living activities or getting around due to long-term illness or disability. PIP does not depend on National Insurance contributions, it is not affected by your income or savings, and it is paid on top of most other benefits or pensions. It is payable whether you work or not and is not taxable.

It does not matter if you live alone or with other people, nor whether you have a carer or other help. Awards are based solely on whether you satisfy the entitlement conditions. You do not have to spend it paying for care, but a local authority usually takes it into account when assessing whether, and how much, you must pay for social care services.

2 Who qualifies for PIP?

To qualify for PIP, you must:

- be aged 16 or over and under State Pension age when you first claim
- not receive DLA (unless transferring from DLA, see section 11.2)
- not be entitled to Armed Forces Independence Payment
- need help with daily living activities or mobility (see section 4)
- have satisfied the daily living and/or mobility conditions for at least three months and expect to satisfy them for at least the next nine months (except if you are terminally ill - see section 5.5)
- not be subject to immigration control
- be habitually resident in the UK and present in Great Britain for 104 weeks out of the previous 156 weeks (see DWP guidance in section 10).

The residence rules may not apply if you are terminally ill, if you have refugee status, if you are a member of the armed forces, or you have lived in a European Economic Area (EEA) state, Switzerland or Ireland. There are also exemptions if you left specific areas of violence or conflict. Seek advice if this applies.

2.1 Rules about your age

You can make a claim for PIP up to State Pension age, 66 years. PIP can carry on after you reach State Pension age, provided you still satisfy the entitlement conditions. Some people receiving DLA are due to be invited to claim PIP when they are over State Pension age

If you have a break in entitlement of less than 12 months after reaching State Pension age, you can make a new PIP claim, provided it is for the same disability or health condition as your previous PIP award. Find out when you reach State Pension age at www.gov.uk/calculate-state-pension or phone the Future Pension Centre on 0800 731 0175.

3 Current rates

PIP has a '*daily living component*' and a '*mobility component*' that can be paid separately or together. Rates for 2025/26 are:

Daily living component	
Enhanced rate	£110.40
Standard rate	£73.90
Mobility component	
Enhanced rate	£77.05
Standard rate	£29.20

4 PIP components

Qualifying for either PIP component depends on an assessment of your ability to perform specific activities related to daily living and mobility. Each activity contains a range of statements (called '*descriptors*'), describing various levels of difficulty in doing that activity. Descriptors score between 0 to 12 points. For each activity, the descriptor that describes your situation most accurately is awarded to you.

The number of points you score for each activity within each component is added up. If your total score is between eight and eleven, you are awarded the standard rate of the relevant component. If your total score is 12 or more, you are awarded the enhanced rate of that component.

If a descriptor applies for more than six months in a one-year period, you score the points for that descriptor (or the highest scoring descriptor if two or more apply to you for more than six months). If no descriptor applies to you for six months of the year, but two or more added together do, the descriptor that applies most of the time applies, or the highest scoring one if they apply for the same amount of time.

Descriptors describe different sorts of help you may need, such as using an aid or appliance, or needing prompting, supervision, or assistance. **Assistance** means physical intervention by another person and does not include vocal assistance. **Prompting** is another person reminding or encouraging you to do an activity. **Supervision** means the continuous presence of another person for your safety.

The descriptor that applies should be the one that best represents what you can manage '*reliably*'. This means you can do it safely, to an acceptable standard, repeatedly, and in a '*reasonable*' time period. You do not have to be getting any help from someone else to score points.

4.1 Daily living component

There are ten daily living activities:

- preparing food
- taking nutrition
- managing therapy or monitoring a health condition
- washing and bathing
- managing toilet needs or incontinence
- dressing and undressing
- communicating verbally
- reading and understanding signs, symbols and words
- engaging with other people face to face
- making budgeting decisions.

See section 12 for a full list of activities, descriptors and points.

Example

The dressing and undressing activity has six descriptors as follows:

Descriptor	Points
a. Can dress and undress unaided	0
b. Needs to use an aid or appliance to be able to dress or undress	2
c. Needs either: (i) prompting to be able to dress, undress or determine appropriate circumstances for remaining clothed, or (ii) prompting or assistance to be able to select appropriate clothing	2
d. Needs assistance to be able to dress or undress their lower body	2
e. Needs assistance to be able to dress or undress their upper body	4
f. Cannot dress or undress at all	8

If you need assistance to reliably dress your lower body all the time, you are awarded two points for descriptor (d).

If (d) applies on average for two months of the year, (e) for three months and (f) for two months, descriptor (e) applies and you score four points.

If (d), (e) and (f) each apply for three months of the year on average, you score eight points for descriptor (f).

Aids and appliances

Many descriptors assess your ability to do something '*using an aid or appliance*'. This is something that improves, provides, or replaces a function: for example, walking sticks, modified cutlery and kitchen utensils, grab rails and shower seats.

It can include an aid or appliance not specifically designed for disabled people like an electric can opener, if you need it due to your disability rather than through choice. If you do not have a particular aid or adaptation, you may be assessed as if you do, if you could reasonably be expected to use it.

With respect to dressing and undressing, the Upper Tribunal currently holds that using a bed as an aid for this activity will only score points in "*extreme cases*".

4.2 Mobility component

There are two mobility activities that are assessed:

- planning and following journeys
- moving around.

Although the mobility component is awarded because you require help getting around, you can spend it how you choose. It is not usually payable if your mobility problems begin after reaching State Pension age. Seek specialist advice if this applies to you.

5 Making a claim

5.1 When to claim

A claim can be made up to three months in advance i.e. before you have satisfied the qualifying conditions of having difficulties for three months. Do not delay claiming as it may take some weeks to deal with your claim. Claims for PIP cannot be backdated before the date of your claim. If you are terminally ill, see section 5.5.

5.2 How to claim

PIP claims can be made by phone or on a PIP1 form or online in certain areas. If you claim by phone, you must provide information to show you meet the basic qualifying conditions, for example age and residency.

If you meet the basic conditions, you are sent a PIP2 form to explain how your physical or mental health condition or disability affects your daily life. The completed form and any other evidence, e.g. GP report or hospital letter, should be sent to DWP within one month. If you have a good reason for needing longer, ask the DWP to extend the time limit.

Action

Phone 0800 917 2222 to start a PIP claim. Have the following information to hand: NI number, bank account details, phone number, GP or other health worker's details, details of any periods longer than four weeks spent abroad in the past three years.

Claim by post

You can get a form to start your claim by post (although this can delay the process). Ask for a form by writing to:

Personal Independence Payment New Claims,
Post Handling Site B,
Wolverhampton, WV99 1AH.

5.3 How your claim is assessed

DWP look at your PIP2 form and supporting evidence, decide whether to ask for additional information and if you need to undergo an assessment. An assessment can be by telephone, video link or face to face and DWP should give you seven days' notice of the date.

Assessments are carried out by a private contractor on behalf of the DWP. You can have someone with you at the assessment. You should be given the opportunity to explain your support needs. If you want a home assessment, e.g. because you have difficulty travelling, make sure you mention this on the claim form. You may be reluctant to admit you have difficulties, but it is important to give a picture of your normal range of activities – not just the things you can do on a ‘good day’.

If you have relevant evidence like a medical report, send it yourself as the DWP and healthcare professional may not ask for it. If you do not return the form in time and attend and take part in an assessment or provide any other information required to assess your entitlement, and you do not have a good reason, your claim can be refused.

A DWP decision maker considers all the evidence including the report from the assessment. They make a decision on whether you are entitled to PIP, what rate(s) you are entitled to, and the length of the award. See section 6.2 for what to do if you disagree with their decision.

5.4 Reassessments

Your entitlement to PIP may be reassessed at any time after it has been awarded. If you are awarded PIP for a fixed term, you must reapply before the award comes to an end. For short awards, the DWP should send you a letter reminding you that you need to contact them on the telephone helpline to make your renewal claim. For longer awards, they should send you a review form one year before your award ends.

5.5 Terminal illness and special rules claims

You are treated as terminally ill if you have a progressive illness that is likely to limit your life expectancy to 12 months or less. If you are terminally ill, you can claim PIP without the three-month waiting period. It is impossible to say exactly how long someone will live and you can continue receiving PIP under these rules, even if you do live longer than 12 months. These are sometimes called ‘*special rules*’ claims.

To claim under these rules, send an SR1 doctor's report with your PIP claim. Ask your GP, hospital consultant or specialist nurse for this. The claim can be made by another person on your behalf. You should not need to have a face-to-face assessment or complete a PIP2 form.

Under these rules, you automatically receive enhanced rate daily living component. You must satisfy the conditions for the mobility component in the usual way, but the three-month waiting period does not apply.

6 Decisions and payment

You are sent a decision on your claim in writing. The letter includes some information about how the decision was reached.

PIP is normally paid directly into your bank or building society account. Payment is normally four weeks in arrears, unless you are terminally ill, in which case you are paid weekly in advance.

It can be paid to an appointee or someone with power of attorney if you are not able to act for yourself. If you are unable to open or manage an account, you can use the Payment Exception Service which allows you to withdraw benefits from PayPoint outlets. If you are unable to use any of these methods of payment, contact the DWP.

6.1 How long is PIP paid for?

A PIP award can be indefinite but is usually for a fixed period. The length depends on an assessment of how likely it is that your daily living and mobility needs may change over time.

If you are awarded PIP for a fixed period, you will be invited to reapply before the award comes to an end – typically 12 months before the end of the period.

If you receive either or both enhanced rates of PIP and your health condition is unlikely to improve, you may be given an ongoing award of PIP with a '*light touch*' review every 10 years.

For each review, you explain how your condition has changed or remained the same. It may result in a new assessment being carried out. If you are given an ongoing award of PIP, it is still important to tell the DWP of any changes of circumstances which may affect your entitlement (see section 7).

6.2 If you disagree with a decision

If you disagree with a decision on your PIP claim, you can challenge it. The decision notice should include details about what to do. It is important to challenge a decision or get advice promptly because there are time limits. Usually, you must act within one month of the decision.

You must ask for a Mandatory Reconsideration (MR) before you can lodge an appeal with HM Courts and Tribunals Service. You have higher chances of success if you appeal, so do not be put off if the DWP refuse to change a decision when you ask for an MR.

If you are awarded PIP but feel you should be receiving a higher rate of or have been awarded one component but not the other, you should seek advice before challenging the decision. This is because your existing award can be reduced or removed entirely as well as increased. See factsheet 74, *Challenging welfare benefit decisions*.

7 Change of circumstances

7.1 If your condition changes

If you are under State Pension age

If you receive PIP and your condition changes so you think you may qualify for a different award, you can ask for your award to be looked at again. This is called a supersession.

You must satisfy the conditions for an increased award for three months before it can be paid. When you ask for your award to be looked at, the DWP can look at the whole award again and can decide to reduce it, increase it, or keep it at the same level.

If you are over State Pension age

You cannot normally establish entitlement to the mobility component for the first time after reaching State Pension age, although you continue to receive it if it was awarded before then. If you get the standard rate of the mobility component, you cannot move to the enhanced rate after State Pension age even if your mobility needs increase.

If you get the enhanced rate of the mobility component and your mobility needs reduce after State Pension age, you can move to the standard rate (and also back to the enhanced rate if your mobility needs increase again within one year).

You can be awarded either rate of the daily living component if you develop care needs after State Pension age and already receive the mobility component. If you are awarded the daily living component before reaching State Pension age and your needs increase or decrease afterwards, you can move from standard daily living to enhanced rate or from enhanced daily living to standard rate.

Important

It is a good idea to get independent advice before asking the DWP to look at your award again because your PIP can go up or down or stop altogether. An adviser can tell you whether you might qualify for a higher rate of PIP and how to explain your needs fully.

7.2 Terminal illness

If you become terminally ill while receiving PIP, inform the DWP and ask for your claim to be looked at again under the terminal illness special rules. See section 5.5 for more information.

7.3 Hospital and care homes

PIP can be affected if you are in, or move into, hospital or a care home. You should always notify the DWP when you go in or out of hospital or a care home. For more information, see DWP guidance in section 10.

7.3.1 PIP in a hospital

Both PIP components are payable for the first 28 days in hospital, if you are maintained free of charge while undergoing treatment as an inpatient. After this period, payment of both components is suspended. If you have two or more inpatient stays separated by 28 days or less, they are linked and payment is suspended after you have spent 28 days in hospital in total. PIP is paid for days at home between hospital stays.

If you claim and are awarded PIP whilst in a hospital and you are maintained free of charge while undergoing treatment as an inpatient, your PIP award starts being paid when you go home. If you pay the costs of your hospital care, you can carry on being paid both PIP components indefinitely. PIP is also paid if awarded under special rules for terminal illness and you are in a non-NHS hospice.

7.3.2 PIP in a care home

Daily living component

If you pay the full fees in a care home, with or without benefits like Pension Credit, you can continue to receive PIP daily living component.

If **any** of the costs of qualifying services (accommodation, board, or personal care) are paid out of public funds (for example, a local authority or the NHS), the daily living component stops 28 days after admission, or sooner if you were previously in hospital. You retain an '*underlying entitlement*', so if you move out of the home, it can be paid again.

If the local authority provides temporary funding that you will pay back later (for example, under a deferred payment agreement), the daily living component remains payable during the period of temporary funding.

If you have a temporary admission to a home, for example, for respite care funded in full or in part by a local authority or the NHS, the daily living component is suspended after 28 days. Periods of less than 28 days are linked and added together to reach the 28-day limit. If you need regular periods of respite care in a care home, it may be possible to plan these, so your PIP award is not affected. Seek advice if this applies.

Mobility component

PIP mobility component is payable no matter who pays your care home fees, or how long you remain in a care home. See section 7.3.3 if you are in a nursing home.

7.3.3 PIP in ‘a similar institution to a hospital’

If you are a nursing home resident or it is unclear whether your accommodation should be treated as a hospital or care home, the DWP look at whether you are undergoing medical or other treatment, and who pays your fees.

If **any** of the costs of accommodation, treatment or other related services are paid for by the NHS **and** the home employs doctors, qualified nurses or other health professionals **and** you receive medical or other treatment at the home from them, your accommodation is treated as a hospital and the same rules apply as in section 7.3.1.

If the home does not employ doctors, qualified nurses, or other health professionals, or you do not receive medical or other treatment at the home from them, your accommodation should be treated as a care home, and the same rules apply as in section 7.3.2.

If you pay the whole nursing home costs (‘*self-funder*’), you can carry on being paid both PIP components indefinitely.

Action

For more information on living in a care home, see our factsheets on care and care homes. Contact Age UK Advice to order them. In **Wales**, contact Age Cymru Advice for their equivalent factsheets.

7.4 If the DWP needs more information

If you report a change in circumstances, the DWP may contact you, your doctor, or someone noted on the claim form, to ask for more information.

They may arrange an assessment carried out by a private contractor on behalf of the DWP. See section 5.3 for information about assessments.

7.5 Prisoners

Generally, neither component of PIP is payable after 28 days in prison or legal custody.

7.6 Going abroad

If you go abroad temporarily and intend to return within 52 weeks, your PIP entitlement continues for up to 13 weeks. If you go abroad specifically to receive medical treatment, PIP can continue to be paid for up to 26 weeks.

Different rules apply to members of the armed forces and their families, aircraft workers and mariners.

Exporting PIP

Sometimes the daily living component (but not the mobility component) of PIP can be paid if you leave the UK to live in a European Economic Area (EEA) state or Switzerland. You may be able to make a claim for the daily living component from an EEA state or Switzerland if you are covered by the Withdrawal Agreement, you are habitually resident in the EEA state or Switzerland, and you have a genuine and sufficient link to the UK. The UK must be your '*competent state*'. See section 2 of factsheet 34, *Attendance Allowance*, for more information on the competent state rules.

For further information and to request a claim form, write to Personal Independence Payment 7 Exportability Team, Mail Handling Site B, Wolverhampton, WV99 1AE, United Kingdom.

There is more information at:

www.gov.uk/claim-benefits-abroad/disability-benefits

or seek advice from a local Age UK or another independent organisation.

In **Wales**, contact Age Cymru Advice.

8 Example of who may be entitled to PIP

Vicky is 62 and was diagnosed with multiple sclerosis five years ago and her husband now supports her full-time. She spends most of her time in an electric wheelchair because she can only walk about 10–15 steps. Although her condition has not changed much over the last 18 months, things are very different from when she was first diagnosed.

Vicky tries to be independent and uses a variety of aids and appliances. Her husband sometimes assists her into the shower, but she can usually do this independently. She has a big walk-in shower cubicle with a seat and once in, she can wash without support. However, it takes a very long time as she has poor manual co-ordination.

She has an adapted toilet with a raised seat and grab rails. In the kitchen, she uses the microwave but finds it difficult lifting saucepans and cutting up food. She has modified clothes with Velcro fastenings, so that she can dress herself. They use an adapted car which accommodates her wheelchair when going out.

Applicable descriptors

Daily living component

Preparing food 1E - Needs assistance to either prepare or cook a simple meal – 4 points

Taking nutrition 2B (iii) - Needs assistance to cut up food - 2 points

Washing and bathing 4B - Needs to use an aid or appliance to be able to wash or bathe – 2 points

Managing toilet needs or incontinence 5B - Needs to use an aid or appliance to manage toilet needs or incontinence - 2 points

Dressing and undressing 6B - Needs to use an aid or appliance to dress or undress - 2 points

Mobility component

Moving around 2E - Can stand and move more than 1 metre but no more than 20 metres, either aided or unaided – 12 points

Award

Vicky qualifies for enhanced rate daily living component (12 points) and enhanced rate mobility component (12 points).

Note - it could be argued for descriptor 4, *Washing and Bathing*, that Vicky should be awarded a higher scoring descriptor. She can wash herself, but she takes much longer than someone without an impairment. Thus, she is unable to do this “*in a reasonable time*”.

As she has already established entitlement to the enhanced rate, there is no point in challenging the decision to award her benefit in this case.

9 PIP and other benefits

9.1 Means-tested benefits

Income from PIP is ignored when calculating entitlement to means-tested benefits like Pension Credit, Universal Credit, Income Support, income-related Employment and Support Allowance, income-based Jobseeker's Allowance, Housing Benefit, and Tax Credits.

Entitlement to PIP daily living component may mean you get more money if you qualify for the severe disability addition or premium in these benefits.

If someone in your household gets PIP, you are exempt from the benefit cap that limits the amount of benefit a working age household can get.

See Age UK factsheet 48, *Pension Credit*; factsheet 17, *Housing Benefit*; and factsheet 56, *Benefits for people under State Pension age*.

9.2 Overlapping benefits

You cannot get PIP at the same time as DLA, AA, Armed Forces Independence Payment, or Adult Disability Payment in Scotland.

Constant AA, paid with Industrial Injuries Disablement Benefit and War Disablement Pensions, overlaps with PIP daily living component. War pensioners' mobility supplement overlaps with PIP mobility component.

If you qualify for two overlapping benefits, you are paid whichever pays the higher amount.

9.3 Benefits for carers

If you are awarded the daily living component of PIP and you have a carer, they may be entitled to claim Carer's Allowance, the carer element of Universal Credit (UC), a carer's addition in PC, or NI credits.

If you have the severe disability addition/premium in PC or other means-tested benefits, it stops if your carer receives Carer's Allowance or the carer element in UC for looking after you, so seek advice.

Note

See factsheet 55, *Carer's Allowance*, for more information, and seek advice to check if claiming this will affect your other benefits.

9.4 Motability Scheme

If you are awarded the enhanced rate mobility component, you can apply for a car, powered wheelchair, or mobility scooter on lease through the Motability Scheme.

See www.motability.co.uk for more information.

9.5 Council Tax

If you have a severe mental impairment and you are awarded either rate of the daily living component of PIP, you may be entitled to a Council Tax discount or exemption.

A severe mental impairment can be a learning disability, mental illness, or a condition like dementia. Ask your local authority for details of the scheme available in your area.

See Age UK factsheet 21, *Council Tax*. In **Wales**, see Age Cymru factsheet 21w, *Council Tax in Wales*. In **Scotland**, see Age Scotland guide, *Council Tax and Council Tax Reduction*.

9.6 Other benefits

If you qualify for PIP, you qualify for a £10 Christmas bonus.

If awarded eight points or more under mobility activity 2 '*moving around*' or 10 points specifically under descriptor e for mobility activity 1 '*planning and following a journey*' because you are unable to undertake any journey due to overwhelming psychological distress, you automatically qualify for a Blue Badge parking permit. This allows parking with some limitations but usually without charge.

If awarded eight points or more under mobility activity 2 '*moving around*' or activity 7 '*communicating verbally*', you automatically qualify for a concessionary travel pass.

If awarded enhanced rate mobility component, you can get an exemption from road tax (Vehicle Excise Duty), or a 50 per cent discount if you receive the standard rate mobility component.

10 DWP PIP guidance

DWP has a range of guidance you may find useful. PIP guidance is at:

www.gov.uk/government/publications/advice-for-decision-making-staff-guide

Specific areas of guidance highlighted in this factsheet can be found by using the above link and selecting the appropriate heading:

- **Who qualifies for PIP?** (section 2) habitual residence and presence – *Chapter C2: PIP, international issues*, from paragraph C2020
- **How your claim is assessed** (section 5.3) – *Chapter P2: Assessment for PIP*
- **Hospital and care homes** (section 7.3) – *Chapter P3: Hospitals, similar institutions and care homes*
- **Reassessing existing DLA claimants for PIP** (section 11.2) – *Chapter P5: Transitional provisions*, from paragraph P5016.

11 Disability Living Allowance

DLA has been replaced by PIP for new claimants aged 16 years to State Pension age. DLA is available for children aged under 16, although it is being replaced in Scotland with *Child Disability Payment*. Contact Age Scotland for more information about this.

This section is for existing adult DLA claimants and looks at what the changes mean. DLA conditions of entitlement are the same as those for AA as set out in section 3 of factsheet 34, *Attendance Allowance*.

11.1 Current rates

Care component

Higher	£110.40
--------	---------

Middle	£73.90
--------	--------

Lower	£29.20
-------	--------

Mobility component

Higher	£77.05
--------	--------

Lower	£29.20
-------	--------

11.2 Reassessing existing DLA claimants for PIP

If you are an existing DLA claimant, the DWP may invite you to claim PIP instead, depending on your age on 8 April 2013.

11.2.1 If you were 65 or over on 8 April 2013

If you were born on or before 8 April 1948, you were aged 65 or over on 8 April 2013 and the reassessment does not apply to you. You can remain on DLA provided you continue to satisfy the eligibility conditions.

11.2.2 If you were under 65 on 8 April 2013

If you were born on or after 9 April 1948, you were aged under 65 on 8 April 2013 and the reassessment does apply to you. When selected, you are told your DLA claim is ending and invited to make a claim for PIP instead, even if your DLA award is indefinite.

When invited, you must contact the DWP within four weeks to start a new PIP claim. The DWP take your basic details and send you a claim form. You are also invited to claim PIP if you report a change of circumstances on your DLA claim.

For PIP, you have four weeks to send this back, although the DWP can give you longer if you have a good reason for an extension. Unless the deadline is extended, your DLA payments stop if you do not make a PIP claim within four weeks.

Note

If you receive a letter, it is important you act as soon as possible. If you miss the four-week window, DLA payments are suspended.

If you make a PIP claim within a further four weeks, your DLA goes back into payment while your PIP claim is assessed.

If you do not make a claim for PIP within the further four-week period, your DLA award stops and cannot be reinstated.

When you claim PIP, your DLA payments continue while you are being assessed. If awarded PIP, your DLA award is paid for four weeks after your next payment date and then your PIP award starts.

If refused PIP, the DLA award is paid for four weeks and then stops.

For information about challenging a decision, see section 6.2.

For more about this process see DWP guidance in section 10.

11.3 Change of circumstances - DLA

If you were under 65 on 8 April 2013

If you report a change in circumstances that affects your current DLA award, you will be invited to make a claim for PIP instead. PIP has no equivalent of DLA low-rate care component so you may lose this and once the PIP claim process starts, it cannot be stopped or reversed.

You have four weeks to make the PIP claim and your DLA award should remain in payment until a decision is made about your PIP claim, see section 11.2.2.

Even though you are over State Pension age, your PIP claim is assessed for both daily living and mobility components and you can establish entitlement to PIP mobility, even if you were not getting the DLA mobility component before.

Important

It is a good idea to get independent advice before you contact the DWP to ask for your claim to be looked at again. An adviser can tell you whether you may qualify for a higher rate of benefit and how to explain your needs fully to the DWP.

If you were 65 or over on 8 April 2013

If your condition changes, you cannot receive low-rate care component for the first time but you can move to, or start to receive, the middle or high rate. For example, if you receive middle rate care but you now need help day and night, you can apply for the higher rate. You must satisfy the conditions for six months before your rate can be increased.

You cannot normally be awarded either rate of the mobility component for the first time unless you were already getting DLA and you can show you met the qualifying conditions for the new award before you reached age 65.

If you were already getting the mobility component, you stay on the rate you got before you reached State Pension age and you cannot move up or down. You can lose entitlement to the mobility component altogether if your mobility improves.

11.3.1 Terminal illness

The same rules apply as for PIP, see section 7.2.

11.3.2 Hospital and care homes

The same rules apply as for PIP, see section 7.3.

11.3.3 If the DWP needs more information

The same rules apply as for PIP, see section 7.4.

11.3.4 Prisoners

The same rules apply as for PIP, see section 7.5.

11.3.5 Going abroad

The same rules apply as for PIP, see section 7.6.

11.4 If you disagree with a decision

The same rules apply as for PIP, see section 6.2.

11.5 DLA and other benefits

The same rules apply as for PIP, see section 9.

11.6 DWP DLA guidance

DLA guidance is at www.gov.uk/government/publications/decision-makers-guide-vol-10-benefits-for-incapacity-disability-maternity-and-bereavement-staff-guide and selecting *DMG Vol 10 Ch 61: Attendance Allowance and Disability Living Allowance*

12 PIP Activities, descriptors and points

12.1 Daily living activities

Activity	Descriptors	Points

Useful organisations

Alzheimer's Society

www.alzheimers.org.uk

Telephone 0333 150 3456

Scotland www.alzscot.org

Telephone 0808 808 3000

Offers advice, information and support to people with dementia, their families and carers through its helpline and local branches.

Asthma + Lung UK

www.asthmaandlung.org.uk/

Telephone 0300 222 5800

Information if you have chest problems and breathing difficulties.

Carers Trust

www.carers.org

Telephone 0300 772 9600

Offers practical help and assistance to carers.

Carers UK

www.carersuk.org

Telephone 0808 808 7777

Information and support for carers, including information about benefits.

Citizens Advice

England go to www.citizensadvice.org.uk

Wales go to www.citizensadvice.org.uk/wales

In England telephone 0800 144 8848

In Wales telephone 0800 702 2020

National network of advice centres offering free, confidential, independent advice, face to face or by telephone.

Dementia UK

www.dementiauk.org

Telephone 0800 888 6678

Work to improve the quality of life of dementia patients and their carers. In some areas, provides Admiral Nurses who support you at home.

Disability Service Centre

www.gov.uk/disability-benefits-helpline

DWP helpline providing advice or information about any claim for DLA, PIP or AA that you have already made:

- **Attendance Allowance (AA)**
Telephone 0800 731 0122
- **Disability Living Allowance (DLA)**
If you were born on or before 8 April 1948
Telephone 0800 731 0122
If you were born after 8 April 1948
Telephone 0800 121 4600
- **Personal Independence Payment (PIP) helpline**
Telephone 0800 121 4433

Disability Law Service

www.dls.org.uk

Telephone 0207 791 9800

Free, confidential advice to disabled adults, their families and carers.

Disability Rights UK

www.disabilityrightsuk.org

Telephone 0330 995 0400

Information about issues affecting disabled people.

Gov.uk

www.gov.uk

Official website for government information and services.

Macmillan

www.macmillan.org.uk

Telephone 0808 808 0000

Provides cancer information, practical advice and support for cancer.

Mencap

www.mencap.org.uk

Telephone 0808 808 1111

Charity for people with learning disabilities and their families.

Mind

www.mind.org.uk

Telephone 0300 123 3393

Provides information and advice for people with mental health problems.

Motability

www.motability.co.uk

Telephone 0300 456 4566

Parkinson's UK

www.parkinsons.org.uk

Telephone 0808 800 0303

Provides support, advice and information for people with Parkinson's.

Royal National Institute of Blind People (RNIB)

www.rnib.org.uk

Telephone 0303 123 9999

Charity offering information and advice for people with sight problems.
