

Order form for Older Men at the Margins resources

This study explored how men older experience and combat loneliness and social isolation in later life. Using the findings, we've written resources which we hope will be helpful for both older men themselves and people who work with older men:

- Guidance for people working with older men (24-page A5 booklet)
- Ideas for older men on how to beat loneliness and isolation (4-page A5 leaflet)
- A policy briefing paper (4-page A4)
- A postcard to publicise the study and resources, with the url for the Age UK web page where these resources, and other materials including videos, can be found

[The resources are free of charge. Please use them to inform service provision, and distribute postcards and information sheets to older people in your area.](#)
